

General's SRP model door is a pan-type product, 2" thick, made with tough 24-gauge, hot-dipped galvanized steel, and pre-finished with an extra-heavy duty paint system that totals 1.0 mil thick. It is available in four colors: Arctic White, Almond, Deep Brown, and Sandtone. Optional vinyl-backed polystyrene insulation yields an R-value of 6.8. This type of door is used by builders of new homes throughout the country.

YOUR DOOR CONFIGURATION:

Residential Steel : SRP : I-car : Plain

FEATURES:

- Made with full 24 gauge steel – a minimum of 17% thicker than most competitors' 25 gauge doors.
- Authentic wood-grain texture and a deep, well-defined raised panel design that is sized and spaced in a way that is proportionate to the door size. Also available flush.
- Durable two-coat, baked –on polyester finish on top of G-40 hot-dipped galvanized steel.
- Full selection of window options, each frame and insert painted to match door and minimize fading.
- Optional 1-1/2" thick polystyrene insulation with plastic back gives R-value of 6.8.
- Ten Year Limited Warranty.

AVAILABLE COLORS:

Arctic White

Almond

Sandtone
