YOUR LIFE YOUR STYLE YOUR HOME

17 designs, 8 window patterns, 4 colors.
One-of-a-kind look.

Select your Model 9700 with the trim pattern, windows and color to achieve a distinctive, designer look. All the choices are yours.

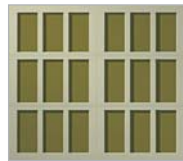

First, choose your door design.

Door styles are designed to complement and coordinate with your home's unique architecture. **This isn't your neighbor's garage door.**

7' High Doors

Westfield*

Providence

Charleston

Algonquin - Top

Portland - Top

Chatham - Top

Litchfield*

Arched Solid Top

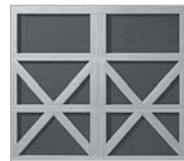

*These models are also available in Arched Solid Top panels. The standard rise of the arch is 4"

Newport

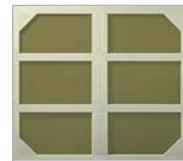

Oakpark

Lexington*

Algonquin - Full

Portland - Full

Chatham - Full

Easton*

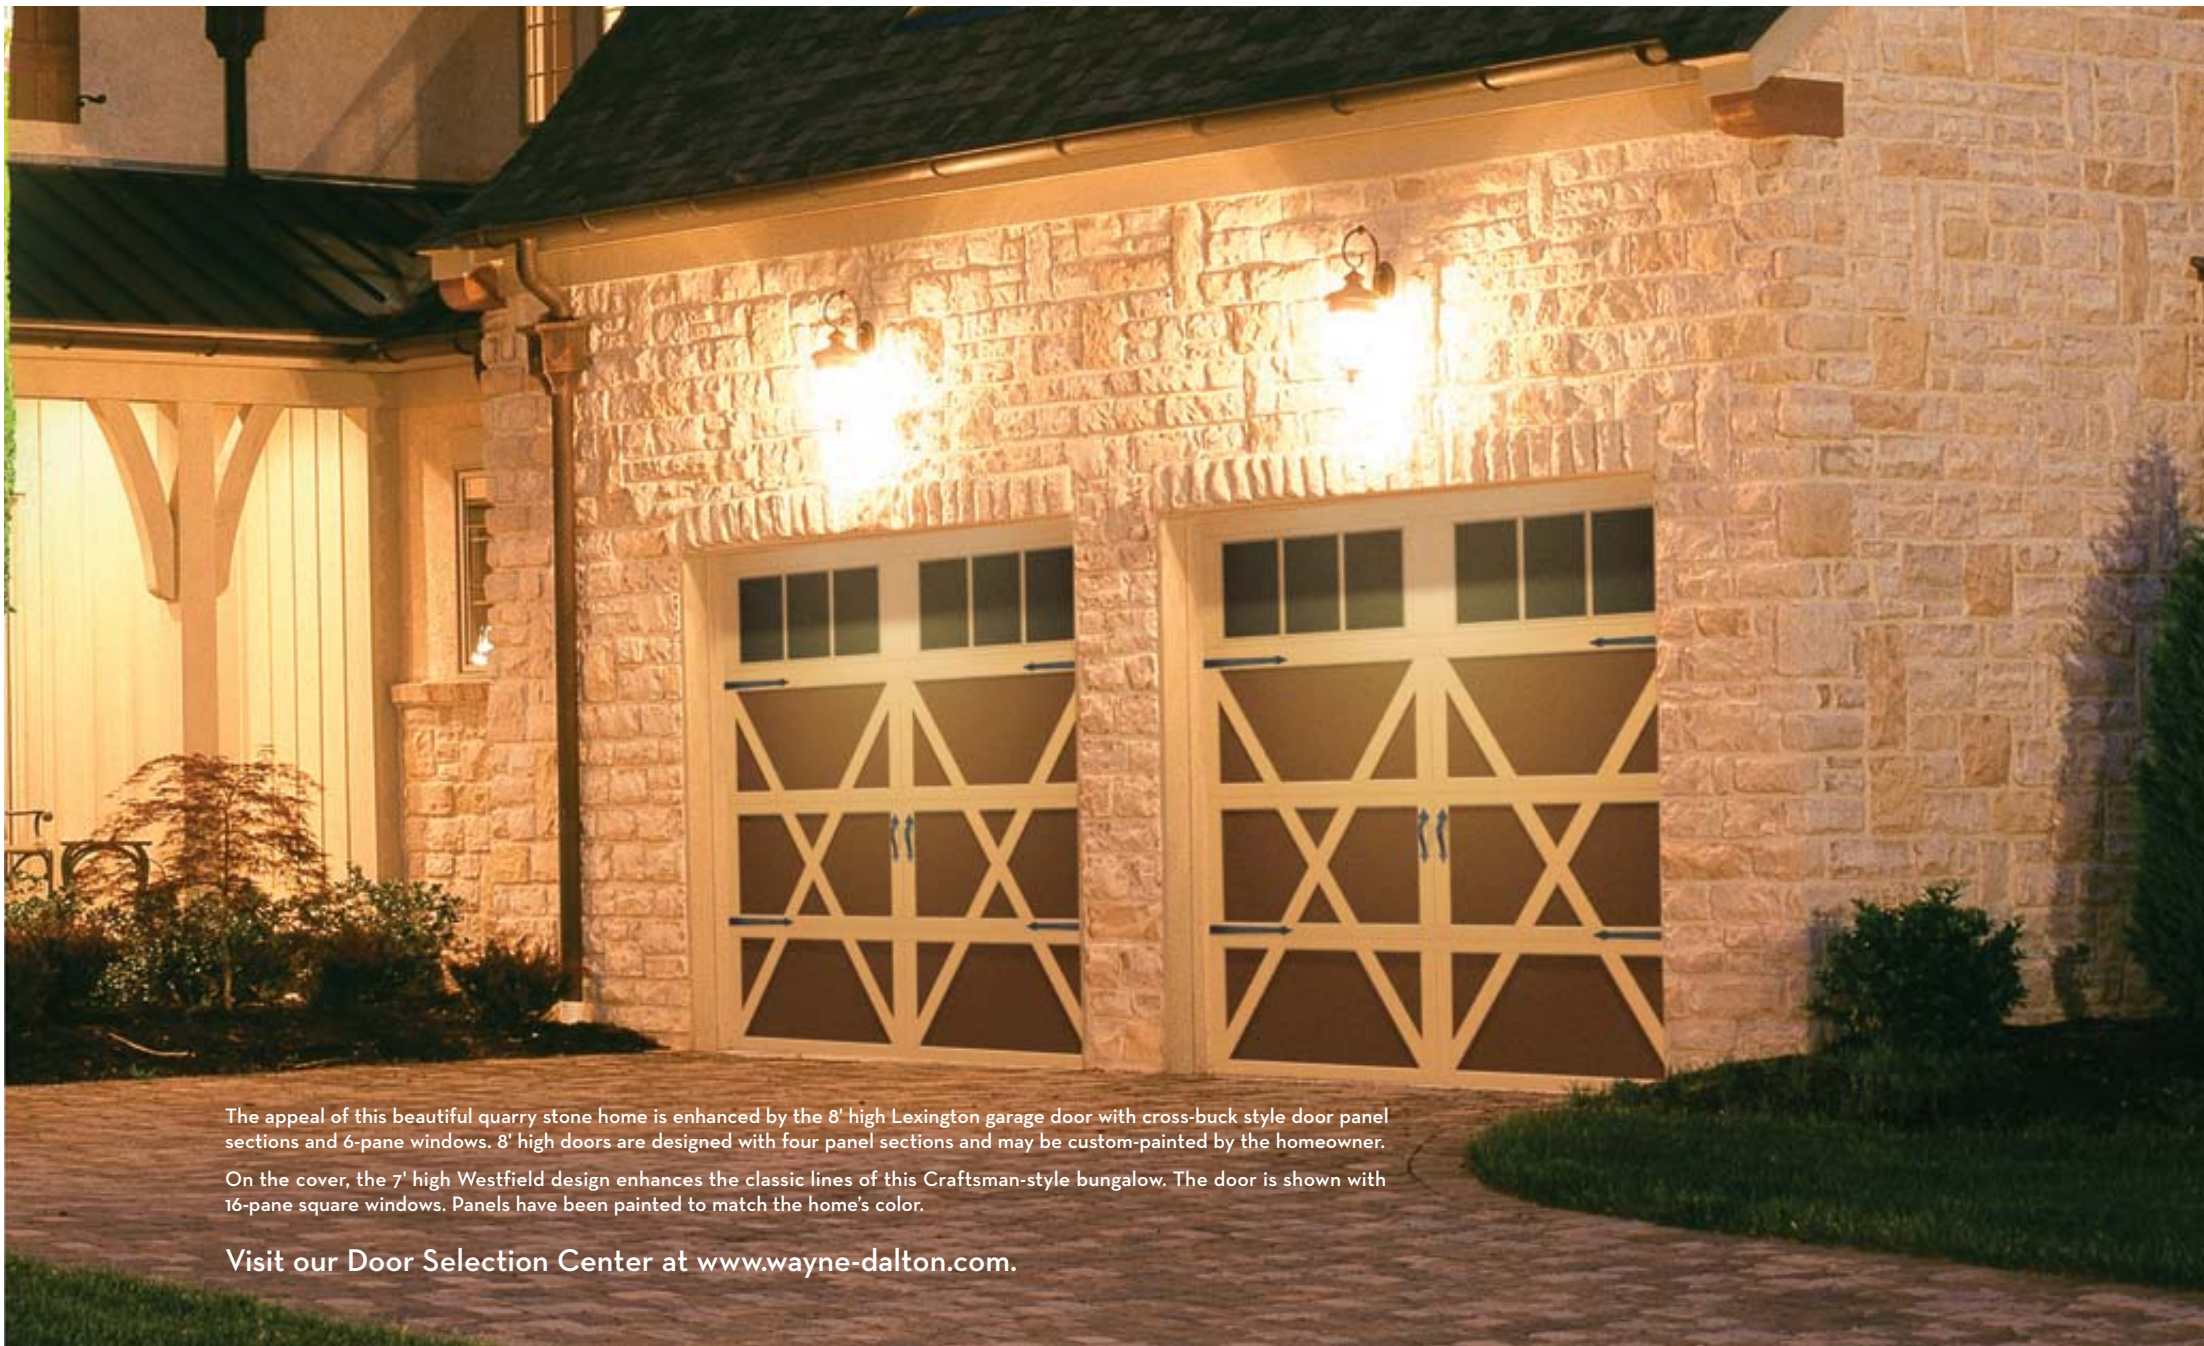

8' High Doors

8' Easton*

8' Litchfield*

The appeal of this beautiful quarry stone home is enhanced by the 8' high Lexington garage door with cross-buck style door panel sections and 6-pane windows. 8' high doors are designed with four panel sections and may be custom-painted by the homeowner.

On the cover, the 7' high Westfield design enhances the classic lines of this Craftsman-style bungalow. The door is shown with 16-pane square windows. Panels have been painted to match the home's color.

Now, select a distinctive window pattern.

Windows make your garage door part of the architecture. Most people add them to their Model 9700 garage door. Choose insulated or non-insulated clear glass in any of the patterns shown here. These clear or patterned styles have actual muntins and divided panes.

Finally, pick the perfect color.

Our maintenance-free factory finishes look great on any home. Many people, however, choose to custom-paint their doors to match their home's trim.

From the curb, they'll think it's custom-painted wood. Doors are available in white or one of three premium colors. Window frames and muntins may be specified in white or matched to the door color you choose. Of course, you may custom-paint your door any way with good, exterior-grade latex paint.

Safety first.

Made with award-winning safety technology including sealed counterbalance, pinch-resistant door panels and tamper-resistant brackets.

Inner beauty.

Foamed-in-place R-10 insulation helps control costly heat loss and gain. The insulation also helps block street noise; 360° weather sealing stops air infiltration.

Finely detailed.

Three-section styling on 7' high doors give a custom design look. Our 8' doors have four-section styling. All panels have finished interiors and low-profile hinges.

Wind-Safe.

Model 9700 is available with reinforcements for use in coastal regions. It meets windload requirements of the International Building Code, Florida Building Code and Texas Dept. of Insurance.

The Model 9700 single-wide 7' doors in the Charleston design enhance this distinctive New England keeper's home. Each door features square top, 8-pane windows with muntins. Doors have been custom-painted to match the home's trim.

Visit our Door Selection Center at www.wayne-dalton.com.

The owner of this 3-car garage chose 7' doors in the Easton design factory-finished Gray. Both double-wide and single-wide doors are shown.

These 7' Newport design doors are a beautiful complement to this traditional home. The 16-pane square windows and decorative hardware straps add beautiful details. The door has been custom-painted by the homeowner.

Litchfield design doors are a perfect match to this popular style home. The 7' doors feature 6-pane arched windows in factory-finished Clay.
